
PART B

Include LOTS of specific facts, findings, and theories from Stress and Pain.

Do not simply copy and paste the same facts/findings/theories from one answer to the next.

Each answer should be 250-300 words long.

DO NOT SUBMIT THIS UNTIL YOU ARE 100% SURE IT'S READY!

1. Based on what you learned from the 10 questionnaires, identify and elaborate on one of your strengths AND tell me what you learned in class about this strength. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (7 points)

   Described and elaborated on the strength identified from one of the ten questionnaires: minimally (1) well (2) very well (3)

   Included facts/findings/theories from the course that are related to this strength: minimally (1) somewhat (2) very well (3) OMG! (4)

2. Based on what you learned from the 10 questionnaires, identify and elaborate on ANOTHER one of your strengths AND tell me what you learned in class about this strength. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (7 points)

   Described and elaborated on the strength identified from one of the ten questionnaires: minimally (1) well (2) very well (3)

   Included facts/findings/theories from the course that are related to this strength: minimally (1) somewhat (2) very well (3) OMG! (4)

3. Based on what you learned from the 10 questionnaires, identify and elaborate on a weakness/area for improvement AND tell me what you learned in class about this weakness. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (7 points)

   Described and elaborated on the weakness identified from one of the ten questionnaires: minimally (1) well (2) very well (3)

   Included facts/findings/theories from the course that are related to this weakness: minimally (1) somewhat (2) very well (3) OMG! (4)

4. Based on what you learned from the 10 questionnaires, identify and elaborate on another weakness/area for improvement AND tell me what you learned in class about this weakness. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (7 points)

   Described and elaborated on the weakness identified from one of the ten questionnaires: minimally (1) well (2) very well (3)

   Included facts/findings/theories from the course that are related to this weakness: minimally (1) somewhat (2) very well (3) OMG! (4)

5. Describe a technique or strategy to help you address one or both weaknesses you identified in this assignment. Describe how you will implement this technique or strategy. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (10 points)

   Described a specific technique or strategy to address a weakness: minimally (1) well (2) very well (3)

   Described how they will implement this technique or strategy: minimally (1) well (2) very well (3)

   Included the science (facts/findings/theories) learned throughout the course: minimally (1) somewhat (2) very well (3) OMG! (4)

6. Describe another technique or strategy to help you address one or both weaknesses you identified in this assignment. Describe how you will implement this technique or strategy. Be specific, thorough, and talk about the science! **cite the module #s and slide #s** (10 points)
   Described a specific technique or strategy to address a weakness: minimally (1) well (2) very well (3)

   Described how they will implement this technique or strategy: minimally (1) well (2) very well (3)

   Included the science (facts/findings/theories) learned throughout the course: minimally (1) somewhat (2) very well (3) OMG! (4)

I will award points for written communication skills.

many writing errors (0) moderate number of errors (1) few or no writing errors (2)
